Efficiently **CONTROL** all image and refraction data on a single software platform

IMAGEnet Connect is a vendor neutral solution. Connect and integrate nearly ANY device and ANY image capture software solution in your practice with IMAGEnet Connect. Acquisition and viewing are easy and seamless. More than 450 device and HIS/PMS software drivers are currently available, compliant with both DICOM and HL7 standards.

MANAGE and **OPTIMIZE** your entire practice workflow

IMAGEnet Connect organizes the patient flow from check-in to check-out. The examination courses are prepared for different types of patient visits to ensure smooth operation without unnecessary waiting time. It also provides operationally efficient statistical analysis to help improve the practice operation flow.
STREAMLINE your clinical data management

Compliant with both ICD-10 and SNOMED standards, the powerful structured data format ensures standardized, universal, high-quality data that can be efficiently entered and shared. Transmission to billing and insurance systems are easy and accurate.
The result- minimized work and more consultation time with patients.
